I am friendly and very energetic person eager to learn new skills when I have had enough sleep. To change career and become a programmer is a big step forward and it's very challenging. During this time I have gained valuable knowledge, enhanced my skillset and I am very excited to continue improving. Being adventurous keeps me awake for every opportunity life gives me.

WORK EXPERIENCE

PHP/Laravel Developer
The Code Connectors

03/2020 - /   *Skopje, Macedonia*
Dutch Company

Achievements/Tasks

- Accomplishing tasks on several applications using Laravel MVC framework.
- Designing new project databases, creating models, relationships, and other business logic that is necessary to satisfy business requirements.
- Implementing CRUD operations, advanced search filters, export/import functionality of CSV files, pdf.
- Sending emails, creating and scheduling commands, creating RESTful custom APIs, socialite login, using laravel packages with the composer.
- Data manipulation and reading from external API resources or other imported files.
- Using TDD for the more complex features.
- Documenting the newly added features and technical specifications.
- Refactoring the old code using the clean techniques I constantly read and learn.
- Enjoy learning and stay up to date with the new technologies. For example like AlpineJS, Livewire, Tailwind and learn the other exciting stuff that I am missing in my tool belt.

SKILLS

PHP JavaScript MySQL

jQuery AJAX Laravel

Bootstrap OOP
